NASA Honor Awards

The 2008 NASA Honor Awards were presented at a ceremony held May 13, at Martin's Crosswinds, Greenbelt, Md. Congratulations to the following Wallops individuals and groups.

Distinguished Service Medal

Dr. John Campbell
For exemplary contributions to NASA's programs, especially the establishment of the HST operations and servicing projects and the revitalization of the Wallops Flight Facility.

Exceptional Public Service Medal

Brenda Mulac
For demonstrating extraordinary collaborative skills in mission management of DC-8 missions operated under the NASA-University of North Dakota DC-8 Cooperative Agreement.

Group Achievement Award

2007 Poker Sounding Rocket Team
For outstanding dedication, sacrifice and technical implementation of 2007 Poker Flat sounding rocket campaign – the most complex and challenging Poker campaign to date.

Group Achievement Award Antarctica 3rd Flight Mission Support Team

For outstanding achievement in implementing an advanced Antarctic launch capability for NASA's Balloon Program.

Exceptional Achievement Medal

Mike Cropper

For significant contributions toward enabling the safe and efficient utilization of NASA's Airborne Science Program aircraft.

Ron Walsh

For project management of the successful launch of the TacSat-2 mission at Wallops Flight Facility in just six months, safely and on time.

Group Achievement Award

Wallops ELV Launch Team
For successfully launching the NFire and TacSat-2 missions within just four months of each other, both safely and on schedule.

Exceptional Service Medal

Felipe Arroyo

For exceptional service in the development of critical instrumentation products and spectrum management for the NASA GSFC/Wallops Flight Facility.

Cliff Leitao

For leadership and sustained contributions to the management of information technology at the Wallops Flight Facility.

Mike Patterson

For notable competence and resourcefulness in guiding the Wallops Flight Facility range safety through difficult and exciting challenges.

Tripp Ransone

For exceptional contributions to NASA science and technology projects through highly effective sounding rocket program management and innovative project concept development.

Ralph Selby (retired)

For significant sustained performance that clearly demonstrates substantial improvement in the technical support of NASA's ground network, sounding rocket and balloon programs.

Bruce Underwood

For sustained, superior performance in implementing and expanding the Wallops mission in support of NASA's strategic goals.

Memorial Day
May 26, 2008

In memory of the U.S. men and women who have died in military service to their country.

Ride Share Workshop at Wallops

The Small Payload RideShare Workshop will be held in Bldg. E-100, May 20 through 22. This conference will bring approximately 150 additional people to Wallops.

Employees are asked to park in the east parking lot behind the E buildings. This will allow ample parking in the Bldg. E-109 (west side) parking lot for the RideShare workshop participants. Your cooperation is appreciated.

Be reminded that the line at the front gate will be a little longer for those days.

If you have any questions, contact Rebecca Powell at x1139.

Standard First Aid Course

First Aid & CPR/w AED

Renewable every 3 years

May 20 and 21

8:30 to 11:30 a.m. and 12:30 to 3:30 p.m.
